## PROFESSIONAL SUMMARY

Full-Stack MERN Developer with 1.5+ years of experience delivering scalable, responsive web applications. Skilled in JavaScript, React.js, Node.js, Express.js, and MongoDB, with strong expertise in REST API design, database optimization, and UI/UX development. Adept at Agile collaboration, Git-based workflows, and building high-performance solutions that enhance user engagement and business outcomes.

## WORK EXPERIENCE

**Software Engineer, *Techriigour IT Solution Pvt. Ltd.***

Jun 2024 – Present

- Developed and optimized **VRetail Web App**, a billing and inventory management system enabling merchants to track inventory, vendors, employees, and customers, and generate invoices/bills efficiently.
- Built **VRetail Admin Portal** backend services with Node.js, Express, and MongoDB, streamlining merchant management and support workflows.

**Software Engineer Intern, *Techview Infotech Pvt. Ltd.***

Nov 2023 – Jan 2024

- Designed responsive, cross-browser-compatible UIs using HTML5, CSS3, Bootstrap, and Tailwind CSS, improving mobile usability by 25%.
- Led a 7-member intern team, assigning tasks, mentoring peers, and ensuring on-time delivery in an Agile environment.
- Collaborated with backend teams, conducted peer code reviews, and enforced coding best practices.

## PROJECTS

**FindStay** – *Real Estate Web App (MERN, TypeScript, Tailwind CSS)*

[GitHub](#)

- Built a platform for buying, renting, and listing properties with advanced filtering and search optimization.
- Developed REST APIs for property management, Google-based authentication, and dynamic search results.
- Created a mobile-first UI with Tailwind CSS and integrated React Query for real-time data updates.
- **Live Demo:** [Find Stay](#)

**AuraNest** – *E-Commerce Website (TypeScript, React, Tailwind CSS)*

[GitHub](#)

- Built an e-commerce store with product listings, top-seller highlights, and blog integration via public APIs.
- Implemented global state management using useContext and enhanced UI with dynamic rendering.
- Delivered a mobile-optimized interface improving customer engagement and accessibility.
- **Live Demo:** [Aura Nest](#)

**Giggle** – *Real-Time Chat App (React.js, Node.js, Socket.IO)*

[GitHub](#)

- Engineered a WebSocket-based chat system with instant messaging using Socket.IO.
- Integrated emoji support, timestamps, and responsive UI for better user experience.
- Designed a scalable frontend-backend structure to ensure reliable performance.

## SKILLS

---

**Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap, TypeScript  
**Backend:** Node.js, Express.js, MongoDB, REST APIs, C, OOP  
**Tools:** Git, GitHub, Postman, Responsive Web Design, Cross-Browser Compatibility, Agile Methodologies  
**Soft Skills:** Team Leadership, Communication, Problem-Solving, Time Management, Collaboration, Adaptability
